Conflict analysis is at the core of conflict-sensitive programming. It is the systematic study of the profile, causes, actors and dynamics of a conflict. Conflict analysis can be carried out at various levels (e.g. local, regional, national, etc.) and seeks to establish the links between these levels.

### **What is Conflict Analysis - Conflict Sensitivity**

A conflict analysis paper tackles an issue with an eye toward making recommendations for the resolution of the issue. A simple example is to write about a fight you had with your spouse: The paper would analyze the fight and why the fight happened, and would make recommendations about how to avoid a similar fight in the future.
